

The Winthrop Rink and Town Trailhead is the culmination of a dream that evolved over many years through the vision and spirit of the Methow Community. Without the help of the community, especially the following businesses, organizations and individuals, the project would not have been possible. Thank you for your generous support!

Thank you to all whose dedication in the early years of the ice rink helped nurture the dream. We've come a long way since the gathering place for skating and hockey was Anne Joslin-Webster's back yard in the 1980's. Many will remember the progression from a rink in a backyard to Odenthal's pond and then to the parking lot at the Winthrop Barn. We have finally realized our dream of a permanent ice rink combined with a trailhead in a central location. In addition to many people listed above, others who have played a role along the way include:

Alec Creighton
Tim Evans
Deed Fink
Bebe Larson
Peter Larson

Aime Marshall
Jim's Pumping Service
Bob & Lani Odenthal
Larry Patterson
Gary Phillips
